Volume scaling *

Multiply

Autoscale - The ratio of a copy's volume to the original volume is equal to the ratio of the follower's and provider's *Compared values*. The result is then multiplied by the *Ratio multiplier*.

Multiply - A copy's volume is equal to the provider's original volume multiplied by the *Volume multiplier*.

Fixed - Copies' volumes are always equal to the specified *Copies' volumes*.

By registering on social trading I read, and I understand that trading by following and/or copying or replicating the trades of other traders involves a high level of risks, even when following and/or copying or replicating the top-performing traders. Such risks include the risk that you may be following/copying the trading decisions of possibly inexperienced/unprofessional traders, or traders whose ultimate purpose or intention, or financial status may differ from yours. Past performance of any provider is not a reliable indicator of his future performance. Social trading platform does not contain advice or recommendations by or on behalf of MEX Atlantic Corporation.

MEX Atlantic Corporation Company No. 354945, a w
owned subsidiary of MultiBank Group is regulated by the
